

Facilitation Services

General Description

Lotus Performance Management can be contracted to facilitate your customised training program, planning day or strategic meetings. With a wide range of experience and an impressive portfolio of group activities, we can work with you to develop and lead a high-impact presentation.

Testimonials

'The planning day was an extremely worthwhile exercise that I hope we will be able to develop into a regular item for the Board calendar. Having achieved so much on the day, it is now important that we can progress the ideas and monitor that progress. Your facilitation and guidance was inspiring.'

'Thank you so much for the planning day on Friday – it was absolutely fantastic! So positive, productive and fun.'

'Your session with us was excellent – you really went above and beyond all expectations. The energy for the changes that are going to occur is incredible – we've gone from disgruntled and resistant to being genuinely excited. Our whole team hasn't stopped talking about it and we're coming up with new ideas every day. Thanks again for a truly inspirational workshop.'
